

DIVORCE WARS IN RANCHO CUCAMONGA

BE CAREFUL WHO YOU MARRY

A local resident who is a member of a Federal Intelligence Agency married an immigrant from a Middle Eastern country. They had a child together and lived a fairly typical Southern California lifestyle. When the divorce war started the Middle Eastern person enrolled the child in a fundamentalist school that advocated Anti-American sentiments. The child is now a teenager and the Federal Agent is afraid of the child.

It's very easy to become enchanted with your spouse in the beginning of the marriage. Most people do not consider the challenges they may face in a state with a divorce rate of over 50%.
